

Economics & Society

Accept The Challenge!

by HANY ABDEL-LATIF

You will hear many people saying that you are dreaming, and it is impossible. Should you then hide your dream? Or even give up? Not at all; simply believe in your dream, and share it with others; including those who deny it. Accept the challenge! You will realise how fruitful this is when those people find out how much they have underestimated your capabilities. Our *Economic Society* took up the challenge to make a difference, relying on the great spirit of its volunteers. Remember, always *dream big and work hard*.

Changing Your Fate!

by MAHINAZ EL-BAZ

Many years ago, Gandhi said "*Be the change that you wish to see in the world*", and that is why the *Economic Society* works hard to contribute to the teaching, learning and researching of economics in Egypt. That is, the call for change regardless of how deteriorated the current situation is. Some of you may have lost hope, and even gave up. Our mission is to support you. To stimulate and revolutionize the study of economics is not an easy mission, and therein lies our long-term goal. For this reason,

we need you all on board. Do not think that our dream is too big to become true, because we believe that nothing is impossible as long as you work hard & smart. Come and join us. Become part of our great family. Share with us your ideas, research and dreams. Together, we can improve our economies by producing high quality educational services. Together we can change our fate!

Planning & Dedication

by ANITA STANEVA

ence in your future career prospective but you like your comfort sitting in your chair? It is probably not possible to move to your dream job or develop your perfect business in a month, so set yourself realistic targets for achieving your vision. Make the effort to get involved with whatever is happening near you, whether that is in the real world or online. Meeting others working in your area of interest through the Egypt Scholars online interactive system and attending the newly established Economic Society program in Applied Economics will increase your chances of finding viable work, succeeding at it and enjoying yourself along the way. Our aim is to bridge the research gap between the Middle East and the West by providing you with a different teaching experience in your language. We dedicate our time to make the biggest possible impact with your career and we want to change the way you think about it.

Wish you could make some differ-
